## **EXPECT TRAFFIC DELAYS AT LITTLE LONG BRIDGE & ADAM CREEK DIVERSION DAM**

*OPG conducting routine bridge inspection*

**Timmins** - Ontario Power Generation (OPG) would like to advise motorists crossing the Adam Creek Diversion Dam or Little Long Generating Station to expect delays of up to one hour on Wednesday, September 19, 2018 from 7 a.m. to 6 p.m. OPG will be conducting routine bridge inspections during this time frame.

Motorists may consider taking an alternative route by traveling to Kapuskasing and taking the Fred Platt and Smokey Line Roads, which will bypass the structures being inspected.

OPG thanks the public for their patience.

OPG generates safe, clean, reliable, low-cost power for Ontario. More than 99 per cent of this power is free of smog and carbon emissions. OPG's power is priced 40 per cent lower than that of other generators, which helps moderate customer bills.
