BOIL WATER ADVISORY ISSUED

Date: Friday, December 6, 2013

Area affected: Moose Factory, ON.

In the interest of protecting public health, a precautionary 'Boil Water Advisory' is being issued, effective immediately. The 'Boil Water Advisory' is being issued due to **POWER FAILURE** which caused a **LOSS OF PRESSURE** to the communal supply.

A boil water advisory means that people who take their water from the communal system should follow the advice in the accompanying fact sheet from the Porcupine Health Unit, called '*How to use water safely during a "boil water advisory"*'.

We will continue to monitor this situation and will notify the residents when the boil water advisory has been lifted.

For more information contact:

Environmental Health Officer: Yongsheng Liang at (705)360 4118

Porcupine Health Unit at (800)461 1818

Moose Factory water plant at (705)658 6520

We apologize for the inconvenience this may cause.

Kind regards,
Ontario Clean Water Agency
