

MAKE YOUR MARK ON FOREVER

We thrive on our employees' creativity, inspiration and expertise - and their passion to succeed.

JUMP START YOUR CAREER WITH DE BEERS

Mine Professional-in-Training Program

Become part of De Beers Canada's multi-disciplinary Mine Professional-in-Training program. Our approach prepares you for a long and rewarding career at our operations in the Northwest Territories and northern Ontario. You will gain practical experience to complement your academic achievements.

Here's what you can look forward to:

- Join the world's leading diamond company;
- Learn on the job in a comprehensive 18-36 month program (depending upon discipline); and,
- Rotate through our operations in Canada, filling technical, operational and supervisory roles.

Given the far reach of the De Beers Group of Companies, as part of Anglo American plc, future international opportunities exist for high-performing individuals.

Here's what we need:

- A graduate with Bachelor's degree from an accredited University in a related discipline (see above);

APPLY FOR INTERVIEWS IN WINTER 2017

We are looking to fill roles in the following disciplines:

- Geological Engineering
- Electrical Engineering
- Mechanical Engineering
- Chemical Engineering

- A results-driven individual committed to safety and our core values;
- A positive attitude towards learning and gaining diverse exposure;
- A team player looking for a long-term career with the possibility of advancement and recognition; and,
- Previous mining industry experience an advantage but not essential.
