## First Nation

Lands & Resources Information Session

# How do we identify and protect birds and wildlife in our Homelands?

Saturday, February 10, 2018  
E.P.R. Centre - 10 am to 4 pm

All are welcome to join the Lands & Resources department for an informative session on protecting habitat for the birds. Our honoured guests are Ted Cheskey from Nature Canada, and Francisco Denes from the University of Alberta. Refreshments will be available.

### Topics:

1. **Moose Cree collaborates with scientists/researchers from Alberta, Ottawa, and Brazil to predict where the birds are!**
  - a. The making of a model (Francisco)
  - b. How we can make better models, this project (Ted/ Francisco)
2. **Updating on the homelands protection plan for the North French River and the Pei Lay Sheesh Kow WHSRN site. (Mike/Ted)**
3. **Threatened species in the homelands:**
  - a. Inland Birds (Ted)
  - b. Coastal Birds (Ted)
4. **Opportunities for involvement (Mike and others)**
  - a. Sharing knowledge
  - b. Participating in field work
  - c. Learning about the species
5. **Community reading/presentation - Rufus the Red Knot (Ted)**
