# "GAMING AUTHORITY" POLICY CREATION

**Moose Cree First Nation is seeking assistance from the membership to develop policies and procedures for all forms of fundraising that are provided to our membership on our homelands.**

We want to ensure all forms of games of chance are in accordance rules and regulations of provincial and federal laws. This will include all forms of raffles, draws, prize draws, lottery formats, bingos, games of chance and anything where cash is exchanged for a chance at a prize, either monetary or an item.

The Moose Cree Economic Development Department will be leading the creation and the administration of this new initiative and will be planning information sessions in the near future. Stay tuned for updates.
