Press Release

Moose Cree First Nation Chief & Council acknowledge and express a growing concern that the abuse of illegal & prescription drugs has become an epidemic in our community. This growing epidemic stems from the illegal drug trafficking and has a negative impact on our First Nation community as a whole. It affects families through increased relationship break ups, divorce, theft, elder abuse and violence. It creates a lot of health and social problems. As a result, the ones that suffer the most are the innocent children and elders of our community.

Moose Cree First Nation Chief & Council is aware that these drugs are also being made available to the younger generation and in some cases, children as young as 10 years old.

This is not acceptable!

Moose Cree First Nation Chief & Council will be examining political, legal and holistic approaches to protect our community from illegal drug trafficking by Moose Cree members and non-members.
