Grief Edu-Therapy and Grief Resolutions - Healing Your Heart

Edu-therapy is recognized as one of the most effective modules in dealing with the pain caused by loss.

As part of a joint initiative between Moose Cree First Nation and Edu-Therapy™ Solutions I would like to invite you and members of your family/friend network to participate in the upcoming Grief Edu-Therapy™ Personal workshops for individuals dealing with significant emotional loss. We can help individuals resolve conflicting emotions caused by loss so that their can enhance their ability to participate fully with their lives.

Grief Edu-Therapy
