

INFRASTRUCTURE PLAN FOR ENERGY TRANSPORTATION CORRIDOR INFORMATION SESSION

MAY 12, 2015
6:30 P.M. | EPR CENTRE

Information will be presented on Mushkegowuk's Infrastructure Plan for Energy Transportation Corridor, including rail and seaport as an option to the development of the Ring of Fire's proposed development. We have been working closely with consultants in pursuing information on what it takes to develop all three corridors.

We invite all Moose Cree members to participate in discussion on this proposed opportunity.

For more information, please contact:

Vern Cheechoo, Director of Lands & Resources
