

National Nursing Week 2017

May 8 -14

Dear Nurses

Meegwetch to each and every one of you for the wonderful work you do. How can we thank you enough for the way you care for our people and our community?

It is so important to us how you provide such a high standard of care that is delivered with such warmth. As nurses you are invaluable and play a major part in the care and health of our community.

Through good times and bad, you have given us reassurance with your words of encouragement and kind actions. In difficult times you put our minds at rest knowing that our children, our Elders and families are in very capable and caring hands.

You are kind, considerate and above all a valuable asset to our community.

In great appreciation and gratitude, thank you again and have a very wonderful Nurses Week.

From the Moose Cree First Nation
