ABORIGINAL CONSERVATION PROGRAM

Last week, the Aboriginal Conservation Program representatives were in our community to launch the program and provided an information workshop on how to save on energy consumption within your homes, thus reducing your hydro bills.

The next step is to gather at least 150 applications for home owners/renters to participate in this program; **the successful applicants will have an energy audit conducted in their homes and may be eligible for some of the following measures:**

- ENERGY STAR® light bulbs
- block heater timers
- smart power bars
- hot water tank wrap and pipe insulation
- efficient showerhead
- efficient faucet aerators
- retirement and replacement of eligible appliances with Energy Star® qualified appliances (e.g., refrigerator)
- programmable thermostats
- draft proofing (caulking and weather-stripping)
- attic, wall and/or basement insulation

We are seeking interested home owners/renters on reserve to participate in this program. If you are interested, please contact the Community Lead on this project, who will send a Canvasser to your home to assist you in filling out an application. Please note, proof of income is required so please have it ready. **We encourage ALL residents living on the Moose Cree reserve to apply.**

We also need more community canvassers. The community canvasser will assist with the application process. For each APPROVED application, the community canvasser will be paid \$25 per approved application. Basically, depending on how long it takes to complete one application, you could be paid at a minimum of \$25/hour or up to \$100/hour, (if you complete 4 applications in one hour). This is an excellent opportunity to earn extra income as the holidays draw nearer. Training is provided.

If you are interested, please send an email to abel.wapachee@moosecree.com or bertha.sutherland@moosecree.com

Thank you/meegwetch.
