

Town Hall Meeting

Working towards a better future

Moose Cree First Nation is hosting a special community Town Hall for all residents of Moose Factory Island.

Social issues have created a challenge that has caused many to be concerned about the present and future state of our community. There is a growing desire for a better future and a stronger tomorrow. The time has come to give a voice to the people to share their dreams for the future and map out a path to reach these goals.

Tuesday, October 28, 2014

6:00 p.m. at the TCJMC Community Hall

We have witnessed positive growth in the community. Our challenge is to find ways to build on our strengths and work together to create a better future for all community members. All community members and service providers are encouraged to attend.

Town hall facilitated by Paul Bagardo
