Moose Cree First Nation will be developing a *Climate Change Adaptation Community Plan*. As we are looking to understand what *Climate Change* means, what potential impacts it will have to our community and how we can look at ways to address & adapt to those concerns. We will be seeking input from all demographics and age groups, as there are plans in the near future to host an Information Session to implement this important work, and create a *Community Working Group*.

**For more information, please contact:**
