

GRIEF EDU-THERAPY™

HEALING BROKEN HEARTS

INFORMATION

Grief is the normal human response to loss and the Edu-Therapy™ process of grief resolution is recognized as one of the most effective programs for dealing with the pain caused by loss and the grief that is often created by conflict within our relations.

The Grief Edu-Therapy Specialist/Team would like to invite you to participate in the upcoming Grief Edu-Therapy™ program for individuals dealing with significant emotional loss. There are over 60 life experiences that have the potential to create sad or negative emotional responses. Left unresolved, the cumulative effects of these experiences reduce our ability to participate in relationships and our lives. Participation in the 3-day program will address the conflicting emotions caused by loss and enhance your ability to participate fully in your life and relationships. Grief resolution can help if are dealing with a loss due to a death, the ending of a relationship, or loss of trust or safety.
