# WETUMROAD

Information and updates for the 2014 - 2015 season

**UPDATE #4:** Posted January 16, 2015

## **WETUM ROAD REMAINS CLOSED** **NEXT UPDATE WILL BE POSTED ONCE OPEN**

**Wetum Road is not safe for travel; please stay off the road.** The current condition of the road makes it is possible for vehicles to become stuck and if this happens, it causes a danger to the driver as well as the persons travelling out to rescue him/her. It also delays the work of the crews on the road.

We will advise when it is open and safe for travellers. **At this time, we are working on the same timeline as last year where it was open on January 24.** Should it open earlier, we shall post it.

As of Friday, January 16, 2015, the road is closed; please do not attempt to travel on Wetum until it is officially open.

Thank you all for your continued cooperation and patience. Meegwetch.
