CASE-BASED WORKSHOPS

# Plan Your Professional Development

## Upcoming wound care education in your community

The Canadian Association of Wound Care offers online and onsite education to help health-care providers continue their professional development, and we are pleased to announce another of our case-based general wound workshops, in **Moose Factory, Ontario, April 2 and 3, 2016.**

**Changing Practice through Applied Knowledge** is a two-day interactive session focused on helping learners apply their knowledge to real-life situations that are common in their practice. It is an update of the CAWC's L2 and L3 workshops.

The highly interactive educational experience builds on the information in the online modules (which are prerequisites for the workshop and which are included in the workshop registration fee) to help HCPs develop organizational change tools to improve practice.

You can link to our website here <http://cawc.net/en/index.php/educational/upcoming-events/>, which has the agenda and registration/contact for registration.

**Date:**

April 2 and 3, 2016

**Location:**

Far North Emergency Preparedness and Response (EPR) Centre  
Moose Cree First Nation  
911 Achimist Street, Moose Factory, ON P0L 1W0

**Cost:**

The total cost of the program is \$439 + HST.

Note: The cost of the online modules is included in the fee.

**FIRST 30 PARTICIPANTS FREE!**

If interested, please send an email with your contact information to:
