First Nation

Town Hall Meeting

Working towards a better future

Moose Cree First Nation is hosting a special community Town Hall for all residents of Moose Factory Island.

Social issues have created challenges that have caused many to be concerned about the present and future state of our community. There is a growing desire for a better future and a stronger tomorrow. The time has come to give a voice to the people to share their dreams for the future and map out a path to reach these goals.

Wednesday, November 26, 2014

6:00 p.m. to 9:00 p.m.

TCJMC Community Hall

We have witnessed positive growth in the community. Our challenge is to find ways to build on our strengths and work together to create a better future for all community members. All community members and service providers are encouraged to attend.

Come and Share your solutions. Town hall facilitated by Paul Bagardo.
